ID’d primary who should be experts on a particular standard. For example, IIA about instruction and learning with primary Committee C&I. Resource Teams id – IEC, EDC, DL, RIE, A&R, etc. Matched list of Committees will be provided along with suggested narrative and suggested evidence to find.</p>	Information only.

		<p>Two liaisons will be assigned to each standard so the “investigator” can reach out to the liaison.</p> <p>Each role is suggested and may or may not be used.</p> <p>As we identify evidence, we need to be sure to point directly to the section within the evidence location.</p> <p>Deadlines/dates – when will the Weaving Teams be identified and when is the deadline due? Each Team will receive additional information with established timelines, others will be developed in coordination with the Team.</p> <p>For each Standard there may be several questions embedded – this can create a lengthy response. Are we to skip every aspect to reduce length? It won’t be addressed in the same manner, will be more streamlined, and we will still address each question. Evidence will be linked and stored in one location with evidence linked, not included in the Standard.</p>	
5.	Institution-Set Standards – Informational Only – Needs approval at IEC.	<p>Patty discussed ISS, which is based on a three-year average and then reported with completion rates.</p> <p>ISS due to CO on April 8 and will be brought back to ASC at the April meeting.</p>	Information only.
6.	Accreditation Conference Reporting	<p>Michelle reported we are wonderfully situated coming from Mt. SAC.</p> <p>Lianne thought about the “reflective” part of Accreditation. Consider central projects for our Qualify Focus Essay. It is okay to put in an area we are working towards and knowing it will not be used against the College.</p> <p>Chat fall – ask everyone to type one word into the chat and</p>
