<u>ITEM</u>	<u>DISCUSSION</u>	<u>OUTCOME</u>
1. Approval of Minutes from November 10, 2021		Minutes were approved with minor edits.
2. Updates	The following documents were briefly shared: New PPIC report about AB 705 (December 2021) and Technical Appendix	
3. Fall 2021 AQ Survey Preliminary Results (David)	Preliminary results from the Fall 2021 Student AQ Survey were shared. Audrey suggested disaggregating survey data by demographics.	
4. AB 705 Memo , Form , Data Template , Webinar a. English and Math Department Decisions b. To-do List	Audrey and David shared an update about the AB 705 memo and webinar. The Chancellor’s Office is requiring that associate and certificate seeking students enroll in transfer-level math courses unless the student is in a program with specific math requirements that cannot be met with transfer-level math.	

<u>ITEM</u>	<u>DISCUSSION</u>	<u>OUTCOME</u>
<p>c. Due: March 11, 2022</p>	<p>Ned reported that the English Department plans to go with Option 2 (which means that no pre-transfer-level English classes starting Fall 2022). David reported that the Math Department voted to go with Option 2 (which means no pre-transfer-level math classes starting Fall 2022). However, the Math Department felt that it was important to state that the vote was made under duress due to requirements from the Chancellor's Office.</p> <p>Audrey shared that Dr. Scroggins would like to pursue Option 3 of the form (which would mean offering some pre-transfer-level classes in Fall 2022). Dr. Scroggins and Kelly Fowler would like to become more involved in the next steps.</p> <p>Maria asked if the data that we're collecting through the AQ is still relevant and helpful to placement. Is there other information we need to collect in the AQ or outside the AQ, such as information about support resources, student backgrounds, etc.? Is there anything we need to collect to help understand what students are entering our classrooms?</p> <p>Liza asked if we could look at surveys or data collected in the last 2 years comparing success rates for online vs. face-to-face. Ned mentioned that there are data dashboards for that, but he's not sure if they're broken down by demographics.</p> <p>Dana commented that one way to support students at the entry, transfer level is to link a math or English class with an ACCESS class. Only 51% of students in the main class need to be registered with ACCESS; the other students don't.</p> <p>Jesse shared that the New Student Orientations and MAP Workshops typically peak in May for summer registrations, and July for fall registrations. He said for the upcoming terms, we'll need to focus on students who need to retake developmental classes—they may not get a chance starting Fall 2022. Also, we'll need to be more strategic about how to do ed planning—helping students schedule classes and balance their load.</p>
